Planets & Balances - JULY

All Month Retrograde (Backwards)--MARS (Aggression) & NEPTUNE(Intuitions/Inspirations) in Capricorn(Active Practicality/Materialism) and SATURN(Teachings/Learnings) & URANUS(Sudden Changes/"Flashes") in Sagittarius(Willful Criticisms/Evaluations). MERCURY(Communications) goes Retrograde in Leo (Willful Planning/Theorizing) 7/11 - 7/23, then in Cancer(Active Emotionalism), with JUPITER(Wisdom) going Retrograde in Pisces (Emotional Criticisms/Evaluations) 7/14. PLUTO(Spiritual-Level Understandings), however, goes Direct(Forward) in Scorpio(Emotional Planning/Theorizing) 7/17.

MONTH-LONG PROBLEMS WITH DESTRUCTIVE AGGRESSIVENESS/STUBBORNNESS & FALSE INTUITIONS/INSPIRATIONS ABOUT ACTIVE PRACTICALITIES & MATERIALISM COMBINED WITH MISTEACHINGS/MISLEARNINGS & DESTRUCTIVE STUBBORNNESSES/UNEXPECTED SHANGES ABOUT/IN FIERY CRITICISMS, THESE COMPLICATED BY COMMUNICATION-PROBLEMS RELATIVE WILLFUL PLANNING 7/11-7/23 & RELATIVE ACTIVE FEELINGS AFTER 7/23, WITH LACK OF WISDOM ABOUT EMOTIONAL CRITICISMS SHOWING UP AFTER 7/14; HOWEVER, THE DEEP-LEVEL(Spiritual) MISUNDERSTANDINGS OF EMOTIONAL CREATIVITY SHOULD CLEAR UP AFTER 7/17.

AIR(Thinking) none all month, with FIRE (Willpower), WATER(Emotionalism), & EARTH (Stability/Practicality) high all month.

CREATIVE(Planning/Theorizing) average 'til 7/11, then low; ACTIVE(Doingness) average all month; EVALUATIVE(Retrospect/Criticism) average 'til 7/11, then high.

STRONG TENDENCIES TO "STEAMY" MATERIALISM WITHOUT REFERENCE TO RATIONALITY ALL MONTH, WITH TENDENCIES TOWARD HYPER-CRITICALNESS AFTER 7/11.

Gla-a-ah!!! Buckle your Psycho-Emotional seat-belts!!! And devote LOTS of attention to maintaining Rationality & Balanced Perspective!!! The world & people in general are likely to be really chaotic & unreasonable this month. (May be lots of volcano-eruptions and violent storms also!)

HAPPENINGS:

Item: Yoga may be a help for bronchial asthma. Research has indicated that a daily, hourly yoga routine of breathing and physical exercises, and meditation increased lung capacity, cleared air passages, and reduced the number and severity of asthma attacks.

Item: Recent research has shown that the brain tries to grow new nerve connections to replace those destroyed by Alzheimer's disease. If this healing process can be enhanced, the progress of this disease can be slowed or reversed.

Item: A federal judge has ruled that the religious and ritual use of peyote is a sacrament, and that employers can't refuse to hire people who use peyote for that purpose.

Item: Asthma deaths have doubled since 1977. It's possible that the availability of better drugs have resulted in a more casual attitude leading to less careful treatment by both doctor and patient. Recent findings show that many severely asthmatic children who died were less psychologically adjusted to their condition than others with the same degree of illness. There is the suggestion that the same factor that is pushing up the adolescent suicide rate may account for the national increase in asthma deaths.

Item: Cattle rustlers, dope dealers, and poachers can now be turned in to Colorado Crime Stoppers by dialing 1 (800) 922-STOP. Indormers can qualify for rewards up to $1,000. Callers need not give their names.

Item: Past studies have shown that children with extra or abnormal chromosomes show up as a high number within the criminal population. Two-thirds of a study group with this abnormality tended to have learning deficiencies, slow motor development and emotional problems. What has now been found is that early intervention, especially a high quality of family life, will tend to reduce the amount of anti-social behavior.

FAREWELL!!!

Denver's Magical community has lost another of its "living legends" with the passing on May 2 of Joe Scott (a.k.a. Giuseppe Michinelli), born in Bologna, Italy, on Nov. 7, 1921, and more commonly-known in Denver's circles as "the 'Strega" or "Medusa". Joe passed over in his sleep as a result of a heart-condition. Fair Winds, and may the next time 'round be easier than this was!

STAR STUDIES:

A mystery object that could be the most massive in the universe apparently contains about 1,000 to 10,000 times the mass of the Milky Way galaxy. It was discovered by the effects of its gravity and in studies of an apparent pair of quasars.

The official count of rings that encircle the planet Uranus will be made next year by the International Astronomical Union which will decide which ones are definite rings and their names.

Originally, small moons were believed to orbit on each side of the rings to keep the material from drifting away. However, Voyager found such moons around only the biggest ring.

Larry W. Esposito, a University of Colorado astronomer, said, "This means some (unknown) process is holding the ring particles inside these boundaries (of 100 feet) and not letting them expand into the vacuum." This leads to his theory that the rings are young (perhaps a few hundred million years old) and haven't had time to drift apart.

Ask the Old Man:

Question: What is likely to be the siruation in America late June - early July?

Hexagram (Answer):

6	— —		— —	
5	— —		— —	
4	— —	GOING	— —	
3	———	TO	———	
2	———X		— —	
1	———X		— —

	Peace		Modesty	

Late June looks like a time of pressures toward social harmony & ending of conflicts; however, the forming of cliques & factions is to be avoided; and attention should be given to the overall situation as well as what is immediate.

IF CLIQUISHNESS & FACTIONALISM BE AVOIDED, THIS WILL BE A GOOD TIME FOR ESTABLISHING HARMONIES, AND FOR ENGAGING IN MAJOR PROJECTS.

Early July looks like a time of pressures toward balancing, "levelling out" inequities, and for carrying quietly through with projects begun in the late June period or quietly beginning other undertakings.

INEQUALITIES WILL TEND TO BE "LEVELLED OUT"; AND THOSE GOING QUIETLY ABOUT THEIR BUSINESS CAN MAKE PROGRESS, EVEN IN MAJOR UNDERTAKINGS.

INTERESTING EMPHASIS ON NATURAL CYCLES & PROCESSES IN BOTH HEXAGRAMS, ALONG WITH EMPHASIS ON BEING IN HARMONY WITH THESE AND GOING QUIETLY ABOUT ONE'S OWN DOINGS!

Throwing A Scent

Remember the rose bush or flower bed in your neighborhood? The smell of warm coffee in your mug? The smells of oil and grease in an auto repair garage? Even if you were not currently in these places, the memories and scents are connected in your memory. When a person uses a certain incense, it is with a desire to influence the "feel", or atmosphere, of the present location.

Although people will react differently to similiar scents, there are scents that most people would agree are pleasant or unpleasant. Natural gas has no scent of its own. Suppliers of natural gas often add a scent to assist in using natural gas without disasterous results.

Certain reactions can be "triggered" by certain scents. Some reactions are instinctive while others are taught to our bodies

-- cont'd next col. --

Throwing A Scent - cont'd:

and minds(ex: the reaction to the sudden "smell" of natural gas).

The body will "look over" a stimulation caused by a scent in differing areas of the brain. The scent of peppermint might make you feel more alert, while also arousing your appetite and cleaning your sinuses.

The effects of scents are not limited to an individual. Women who spend a long period of time together (6-12 months), will tend to menstruate during similiar periods of time. A female animal in heat can cause chemical changes in males (as shown by predictable actions) by her scent alone.

The farming, livestock, medical, and entertainment industries are just a few to research, develope, and use reactions to differing scents with a profitable result. Farmers can use scents to protect crops and property; the livestock industry can use scents to effect the sex and breeding of animals; medical researchers are looking into using scents to carry medications into the body (for getting medication to the brain, to treat Alzheimer's disease for example); theaters and restaurants can use scents to help set-up an environment or scenario.

Differing scents can be used for ritual or magical purposes. The correspondences to air, fire, water, and earth of differing scents can be used to develope certain influences.

For interesting conversation -- would cinnamon represent fire or earth? Would vanilla represent air or water?

Differing scents, or smokes, can be used to assist in the calling or invocation of certain beings, to assist in working with a specific influence, energy, or Being.

There are scientists who believe that the sense of smell is a major influence in the developement of the brain in a child, and to the maintenance of health in adults.

The smells and scents of life are an influence that most beings have used for survival for centuries on this planet.

LET'S TALK RUNES:

The real voyage of discovery consists not in seeking new landscapes but in having new eyes. *Marcel Proust*

(ᚲ)*Kano* is one of the runes of *Freyr's eight*. This rune is one of opening or beginning. An indication for clarity, concentration, and seriousness. This is needed to start a day's activities, or to begin a project -- when the full light of day helps to better perceive situations for what they really are. This rune might show some personal or emotional "opening" of a relationship. The symbol is one of a new beginning.

Reversed, the influences are more toward an ending of personal relationship or situations that might cease to exist. Being advised of the presence, or developement, of a final set of circumstances; you are given a chance to prepare for the event. This would allow the lessons and possible opportunities to be appreciated in a favorable manner.

(ᛁ)*Isa* is one of the runes of *Hagal's eight*. The influences are dormancy, solitude, and a time for starting over. Some have said that this rune is "that which impedes". Yet its nature is more that of the snow and ice of winter, rather than a karmic keeping of accounts.

Through rest and acceptance of the passage of time, a person can prepare for beginning a new cycle or project. This rune might serve notice of a very effective disruption of current affairs, or to a situation that required a person to stand alone. Still. acceptance, instead of resistance, might better see to the maintenance of personal affairs.

(ᛞ)*Dagaz* is a rune of *Tyr's eight*. This rune is an indicator of major shifts, transformations, or breakthrough. Maybe just an attitude re-alignment, or maybe a situation that requires action without reservation. Dependent upon the runes that might accompany this one in cast or draw, this rune could foretell death or the need to act quickly to keep pace with current activities.

Some would say that prosperity and achievement are quite possible, as a result of the influences symbolized by this rune. Though one should mind to matters of personal concern carefully, without recklessness or desperation. I see the influences. shown by this rune, in a positive way.(How did the Chinese say it -- *"May you live in interesting times."*?)

-- cont'd next col. --

Let's Talk Runes - cont'd:

While I was writing material for this column, another person asked why I was studying and writing about the runes. After recovering from being caught "flat-footed", I answered in the following way.

I am studying the runes out of curiosity. To learn about life. To be able to answer questions like: What do they mean? Who used or developed the runes? Why use runes to address present and personal matters? How can the runes be used or read? My curiosity is both academic and personal in nature.

The runes are a system of symbols and a means of communication. The people who developed character systems used these systems for different purposes. For myself. the runes represent an oracle and a method of communication. Details can be easier to get from the tarot cards or crystal. Clarification of issues and motivations are easier to get through the runes.

Although the guiding influences of the future can be better outlined by the runes, the details of the characters or events are easier to get through the tarot. Each of the differing methods, and the results. must be considered on its own merits. I am more comfortable in the observations, or use, of runes(than in most other methods) for clarification or divination of the present and the future. Yet. there is always more to learn about peoples, places, things. and ways of living. I hope for the company of the runes far into the future.

ᛞᛁᚲ *Shadoweaver*

PRACTITIONERS' NOTES:

Like Being Here? -- Then Stay Alert!

Information received over the last couple of months indicates that the predicted (by Old Traditions & Modern Psychics) attempts by one or more (The evidence suggests at least 2.) space-going cultures to "harvest" or "pick up" (for whatever purposes) "souls" of Earth-Humans during the current World-Change is seriously underway as of this Spring.

In addition to the use of Crystal/Laser-Energy broadcasts that seem to be "tuned" so as to put sub-liminal messages and/or pictures into Television and FM-Radio frequencies, at least one group seems to be putting out some sort of "pull-beam" along with a "picture" of an "Angelic" Being (surrounded with White-Light) that apparently draws susceptible sleepers from their bodies and issues instruction to go to geologically high-risk areas (such as the California-San Andreas or the Mid-Contintinent-New Madrid Fault-Line) where Major earthquake activity will be occurring in the near future (within 5 - 10 years).

The currently most-effective means of dealing with the Energy-broadcasts seems to be to burn a Grass-Green candle for an hour or so in one's bedroom before retiring, and in rooms with TV-sets for an hour or so every other day or two -- especially if one is having a "restless night".

Anent the being drawn from one's body, or being "enticed" by an "angelic"-appearing Being, telling oneself firmly just before going to sleep that NO "dream-travel" is to occur seems to help. *(Slowly Writing or Printing the instruction 3 times with pencil-&-paper and full attention to the Instruction is a good way of doing this!)*

If one still has a "dream" of being drawn from one's body, anchor into Plants, House-Foundations, or Bedrock-structures and "feed" the energies from those through oneself toward the "pull" while also holding onto one's body.

In NO case would we recommend following any sudden or unexplained urges to move to any of the geologically-"critical" areas mentioned above! Especially approaching or during earthquake seasons (April-May & August-September this year) or other astrologically-critical times.

So far as we know, the only way one can be "harvested" is to willingly give up your Earth-body and/or your connections to this Earth (either intentionally or accidentally)!

AMERICAN LACNUNGA: The Meaning of Liberty

I remember this one teacher. To me, he was the greatest teacher, a real sage of my time. He had such wisdom. We were all reciting the Pledge of Allegiance, and he walked over. Mr. Lasswell was his name. He said:

"I've been listening to you boys and girls recite the Pledge of Allegiance all semester and it seems as though it is becoming monotonous to you. If I may, may I recite it and try to explain to you the meaning of each word:

I - me, an individual, a committee of one.
PLEDGE - dedicate all of my worldly goods, to give without self-pity.
ALLEGIANCE - my love and devotion.
TO THE FLAG - our standard, Old Glory, a symbol of freedom. Wherever she waves, there is respect because your loyalty has given her a dignity that shouts freedom is everybody's job.
OF THE UNITED - that means that we have all come together.
STATES - individual communities that have united into 48 great states. Forty-eight individual communities with pride and dignity and purpose, all divided with imaginary boundaries, yet united to a common purpose, and that is love for country.
OF AMERICA.
AND TO THE REPUBLIC - a state in which sovereign power is invested in representatives chosen by the people to govern. And government is the people and it's from the people to the leaders, not from the leaders to the people.
FOR WHICH IT STANDS.
ONE NATION - meaning, so blessed by God.
INDIVISIBLE - incapable of being divided.
WITH LIBERTY - which is freedom and the right of power to live one's own life without threats or fear or some sort of retaliation.
AND JUSTICE - the principle or quality of dealing fairly with.
FOR ALL - which means it's as much your country as it is mine.

Since I was a small boy, two states have been added to our country and two words have been added to the Pledge of Allegiance - "under God."

Wouldn't it be a pity if someone said, "That is a prayer," and that would be eliminated from schools, too?

(signed) RED SKELTON

VOICE OF THE TURTLE:

The Best Defense ....

In view of the evidences of our being "tinkered with" by non-Earth Influences (see "Practitioners' Notes".), a question arises as to the best personal means those of us committed to Earth and Grandmother's system have for defending ourselves against the effects of the "tinkering".

The first answer coming readily to mind is that One should become constantly Aware of Earth's Elemental Energy-Flows (Air, Fire, Water, & Earth) and Competent at the Intaking, Outputting, & Flowing-Through of these (e.g., that one be magically competent in the Basics), this on the basis that the mechanisms used by Extra-Terrestrials do not fare well when "dosed" with Earth-Planet Energies.

As a Corollary Proposition, One needs to become Habituated to "re-rooting" any time more than a few minutes are spent in any man-made vehicle or large building (office-buildings, super-markets, apartment/condominium complexes, and so on).

One needs Also to become truly familiar with, and Friendly towards, One's Body, the Body being in fact a Part of Earth's Natural Structure & Energy-System and, hence, a "ready resource" as an Earth "anchor-point" and "Energy-access terminal".

Additionally, One must needs thoroughly explore One's deepest Values and Beliefs, "rooting out" and discarding Any that give the mind cause for generating Fear of the Planet's Natural Order & Processes, "feelings" of Guilt or Wrongnesses for being a Human Person with a Body, and/or Compulsive Reliance on Others' Opinions ("Authority") as a guide to what is "Right" or "Proper" to Be, Do, or Feel.

Finally, One needs to become Deeply Committed to the Proposition that "THIS PLANET IS MY HOME WHERE I WILL STAY!" (regardless of the "how" or "when" of One's arrival!!!).

It is My Thought that any who do the foregoing are, In Fact, helping both Themselves and Grandmother to "heal the Earth" and to "protect the Earth" against Alien & Destructive Influences.

Just so! --*Kahote*--

HEALTH OF MIND AND BODY:

Soviet doctors are presently performing assembly-line surgery such as; radial keratotomy(a method of making incisions in the eye for the purpose of correcting near-sightedness), glaucoma, and cataracts. These operations take place at outpatient facilities, using local anesthesia. The patient lies on a conveyor belt and is transported to various teams of surgeons. Each group of doctors performs one part of the operation. The surgery is completed by the end of the assembly line and the patient is ready to leave.

Snyatoslan Fyodorow, the doctor who invented radial keratotomy, also intends to automate other surgeries, including appendectomy and coronary bypass. He is looking to the use of robotics for routine surgeries as well.
